

product type designation

product description

Cable USB / MV320 connector

Standard cable for USB

USB cable 6' (1.8m), for Use only with MV320 straight (not coiled).

Figure similar

Technical Product Detail Page

<https://l.siemens.com/1P6GF3320-0AC02>

suitability for use

Plug-in cable for connecting an MV320 to a PC

wire length

1.8 m

electrical data

number of electrical connections

2

type of electrical connection

USB connector (Type A) / MV320 connector

mechanical data

net weight

0.07 kg

security information

security information

Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under <https://www.siemens.com/cert>. (V4.7)
