

product description

fixing system for mounting on an BOSCH profile

mounting plate MV500 without light material: stainless steel (2 mm), mounting profile: M6 drill hole mounting light: 100x100 mm mounting MV500: horizontal or vertical dimensions: WxHxD (mm) 100x 100x 150 scope of supply: 1 holder.

Technical Product Detail Page	https://l.siemens.com/1P6GF3500-8CD
suitability for use	angle of inclination adjustable to the degree for alignment of camera and light to the object
suitability for operation	for MV500 or floodlight
supply voltage, current consumption, power loss	
type of voltage / of the supply voltage	#NO_DATA#+K101:EE101
mechanical data	
material	metal
color	metallic
standards, specifications, approvals	
reference code	ULB
<ul style="list-style-type: none"> according to IEC 81346-2:2019

Security information	
security information	<p>Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)</p>
