

product type designation

**RUGGEDCOM 2488-24PTP1 Module CC**

PTP Module for RUGGEDCOM RSG24 88 with Conformal Coating

Technical Product Detail Page

<https://l.siemens.com/1P6GK6000-8PT01-4EA1>

suitability for operation

RSG2488

### design, dimensions and weights

design	Media module
width	110 mm
height	22 mm
depth	91 mm
net weight	0.43 kg
product feature / conformal coating	Yes
fastening method	screwed
<ul style="list-style-type: none"> <li>• installation in media module slot</li> </ul>	Yes

### standards, specifications, approvals / Environmental Product Declaration

Environmental Product Declaration	Yes
global warming potential [CO2 eq]	
<ul style="list-style-type: none"> <li>• total</li> </ul>	259.55 kg
<ul style="list-style-type: none"> <li>• during manufacturing</li> </ul>	13.3 kg
<ul style="list-style-type: none"> <li>• during operation</li> </ul>	246.21 kg
<ul style="list-style-type: none"> <li>• after end of life</li> </ul>	0.04 kg

### security information

security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit
----------------------	---

www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under <https://www.siemens.com/cert.> (V4.7)
