

product description	battery in pack of 20 for SIMATIC RTLS5201T, brand: SAFT LS14250 SIMATIC RTLS accessory size 1/2 AA, 3.6 V, LS 14250, pack of 20, suitable for RTLS5201T pack of 20
Technical Product Detail Page	https://l.siemens.com/1P6GT2792-0BB41
suitability for use	replaceable by customer
suitability for operation	suitable for transponder RTLS5201T
product features, product functions, product components / general	
type of battery	Lithium battery pack
voltage / rated value	3.6 V
battery capacity	1200 mA·h
design, dimensions and weights	
net weight	8.9 g
ambient conditions	
ambient temperature / during operation	85 ... -60
ambient temperature / during storage	30
further information / internet links

security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry . Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert . (V4.7)
