

product type designation	Plug-in cable RS232, D-sub-D /USB-A / PicoBlade
product description	flexible communication line SIMATIC RF1000 RS232 plug-in cable for RF1000 reader to PC with D-sub 9-pin plug, 5 V via USB A plug, length 1.8 m consisting of 6GT2891-7UA18, 6GT2091-7UH10.
Technical Product Detail Page	https://i.siemens.com/1P6GT2891-7UH18
suitability for use	Plug-in cable for connecting an RF1000 reader to a PC or other serial modules with submin D connection
wire length	1.8 m
electrical data	
number of electrical connections	3
type of electrical connection	submin-D (female, 9-pole, straight) / USB-A / PicoBlade 51021 5-pole
mechanical data	
number of electrical cores	5
outer diameter	
• of cable sheath	5 mm

security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry . Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
