

product type designation

product description

Retaining bracket for RF645T

Retaining bracket for RF645T transponders

SIMATIC RF600 Fixing bracket for RF645T Plastic PA 6.6 30GF minimum order quantity 20 units.

Technical Product Detail Page

<https://l.siemens.com/1P6GT2898-5AB00>

suitability for use

Transponder lies crosswise in the retaining bracket

suitability for operation

for transponders RF645T

mechanical data

material

PA 6.6 GF

color

black

ambient conditions

ambient temperature

- during operation -40 ... +85 °C
- during storage -40 ... +85 °C
- during transport -40 ... +85 °C

design, dimensions and weights

width

66 mm

height

15.3 mm

depth

24 mm

standards, specifications, approvals

reference code

- according to IEC 81346-2:2019 UQB

Security information

security information

Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit

www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under <https://www.siemens.com/cert>. (V4.7)
