

product type designation

product description

IE FC TP standard cable GP 4x2, CAT7, sold by the meter

shielded TP installation cable (8-wire) with rigid cores, sold by the meter, unassembled

IE FC TP Standard Cable GP 4x2; FastConnect Standard Cable GP 4x 2, TP installation CAT7 cable for connection to IE FC RJ45 plug 4x 2 and IE FC M12 plug PRO 4x2, AWG25, sold by the meter, package item max. 2000 m minimum order quantity 20 m

Technical Product Detail Page

<https://i.siemens.com/1P6XV1876-2A>

suitability for use

Standard cable with rigid cores for fast, permanent installation

cable designation

SF/FTP, 2YCY 4X2X0.45/1.15-100LI PIMF GN

electrical data

attenuation factor per length

• at 10 MHz / maximum	0.059 dB/m
• at 100 MHz / maximum	0.19 dB/m
• at 300 MHz / maximum	0.342 dB/m
• at 600 MHz / maximum	0.501 dB/m

impedance

• at 1 MHz ... 100 MHz	100 Ω
------------------------	-------

near-end crosstalk per length

• at 10 MHz	0.78 dB/m
• at 100 MHz	0.724 dB/m
• at 300 MHz	0.652 dB/m
• at 600 MHz	0.607 dB/m

loop resistance per length / maximum

290 mΩ/m

operating voltage

• RMS value	100 V
• maximum	100 V

NVP value in percent

69 %

mechanical data

number of electrical cores

8

design of the shield

SF/FTP, overlapped aluminum-clad foil, sheathed in a protective braided shield of tinned copper wires, central shielding wire of the line must be connected to the shield contact during plug assembly (see assembly video)

type of electrical connection / FastConnect

Yes

outer diameter

• of inner conductor	0.45 mm
• of dielectric	3.8 mm
• of the wire insulation	1.15 mm
• of cable sheath	8 mm

symmetrical tolerance of the outer diameter / of cable sheath

0.2 mm

material

• of the wire insulation	polyethylene (PE)
• of cable sheath	PVC

color

security information

security information

Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under <https://www.siemens.com/cert>. (V4.7)
